

I want to represent you!

My name is Denise Klug, and I am deeply rooted in this community where I grew up. After graduating from Cobleskill Richmondville High School, I joined the Navy and dedicated twenty years of service to my country.

I returned with my family to the community I love. My son is currently a fourth grader at Radez Elementary School, my husband serves as a mail carrier, and we co-operate our family farm with my brother.

My interests are diverse, spanning from working with animals to exploring new places through travel. My son is actively involved in Scouting America and soccer, and you can often find me supporting his activities after school hours and on weekends. I cherish exposing my son to new experiences that ignite his imagination.

I am eager to become a member of the Library's Board of Trustees as I am passionate about volunteering my time to benefit our community. The library has been a significant part of my son's life, providing essential programs and activities that he enjoys just like many other children in the area. As a family, we regularly visit and participate in various events at the library.

As a parent and an active community member, I believe I bring a valuable perspective to the Library's Board. I understand the importance of the library as a resource for our children and as an affordable way for families to spend quality time together. I would be honored to serve my community by contributing to the library's mission and ensuring its continued positive impact.
